SWIFTEC IT, INC AND CORPORATE TECHNOLOGY INC JOIN FORCES!

To our valued customers:

We want to share with you some exciting news at Swiftec IT, Inc (Swiftec). Effective June 1, 2008 Swiftec and Corporate Technology, Inc (CTI) have partnered to jointly provide IT services to their combined client base under the Swiftec IT, Inc name; with computer forensic services being offered under the Corporate Technology, Inc name. The technical support you have been receiving from Swiftec and CTI will continue as before, but will be enhanced by additional staff and locations.

What will change?

We will now have an office at 292 Main Street in Northborough, as well as 387 Main Street in Oxford. The staff you are familiar with from both companies will continue to service your account as before. Our letterhead and invoices will reflect the Swiftec name.

Why the change?

CTI is focusing its business in a tangential direction by concentrating its efforts in the area of digital forensic solutions. Digital/computer forensics is the use of investigative techniques to identify, acquire, analyze and preserve evidence/information stored on digital media/devices, usually with respect to criminal investigations or civil litigation. Digital forensic techniques can also be of value in a wide variety of other situations such as insurance fraud and the corporate arena.

Who is Swiftec IT, Inc?

Swiftec IT, Inc. was founded by IT industry leader Adam Winter. Adam has an MBA degree from Clark University and is a Microsoft Certified Systems Engineer (MCSE). Adam brings the global experience of major corporations he served to smaller companies where it can have significant and immediate impact. He is noted for

insights and solutions to technological issues that beset many companies: strategic planning, automated backup and recovery, disaster recovery, creating help desks and other vital IT functions.

Who is Corporate Technology, Inc?

Corporate Technology Inc is a provider of technology consulting services for small businesses as well as an enterprise level reseller of hardware and software. Their tag line "Solutions for Today's Technology" sums up the business well. Over the last decade, they have built strategic partnerships with industry leaders to give them the necessary tools required to support the ever-changing needs of their clients. President Robert Cooney has been involved in technology and management since 1991 and has proven that he has what it takes to be successful in the ever-changing world of technological advances.

What services are available?

One of the reasons for this partnership is the remarkable similarities of the two entities, thus assuring a seamless transition to a greater entity. Swiftec's motto of Corporate quality IT for growing companies provides insight into its goal of providing quality IT to businesses with limited in-house IT capabilities.

Our service offerings will continue as follows:

- Outsourced IT - On call IT support when you need it
- Automated Remote Backup - relieving the burdensome task of continually worrying and monitoring your backups. Your data will automatically be backed up, monitored and maintained securely, offsite.
- Web Hosting / SPAM filtering - a dedicated top-of-the-line server just for our clients.
- Purchasing assistance. We are a Dell reseller, capable of customizing the right computer to meet all client needs.

Questions / Comments

All of us look forward to a long and mutually beneficial relationship. Should you have any immediate questions or concerns, please do not hesitate to contact Adam Winter (508-393-3090 or 508-865-0095) or Bob Cooney (508-865-0095 or 508-393-3090)
